Brookfield picks up 51% in four Bharti properties

Harjeet Kohli, joint managing director, Bharti Enterprises, said, "Bharti will continue to invest substantially to develop more real estate assets to serve the growing demand for well-managed commercial real estate in India. With a pipeline of more than 10 million sq ft, this deal will become the template for yielding and developed assets."

Ankur Gupta, managing partner, head of real estate, APAC region and country head - India, Brookfield, said, "High-quality real estate in global gateway markets and in particular, the Indian office market, continue to witness high demand from occupiers. We look forward to leveraging our global expertise to build future-ready office environments in India."

In India, Brookfield owns and operates over 50 million sq ft of commercial real estate assets in Delhi NCR, Mumbai, Bengaluru, Chennai, Pune, Hyderabad and Kolkata. It launched India's third Real Estate Investment Trust (REIT) in 2021 after successfully raising ₹3,800 crore through an initial public offer.

Brookfield Asset Management is a leading global alternative asset manager with about \$800 billion of assets under management across renewable, infrastructure, real estate, private equity, credit and others.

JPMorgan snaps up First Republic assets

PNC shares were 2.5% lower in premarket trading.

The California Department of Financial Protection and Innovation said it had taken possession of First Republic and the FDIC would act as its receiver. The FDIC estimated in a statement that the cost to the Deposit Insurance Fund (DIF) would be about \$13 billion. The final cost will be known when the FDIC ends the receivership.

The US Treasury Department welcomed the resolution, saying it was done at "least cost" to the DIF. JPMorgan has assumed all of the bank's deposits, it said, and will repay \$25 billion of the \$30 billion big banks deposited with First Republic in March.

8.9 BILLION TRANSACTIONS WORTH ₹14.1 TRILLION

UPI volume, value rise to record highs in April

Last three days of month saw nearly 1 billion transactions

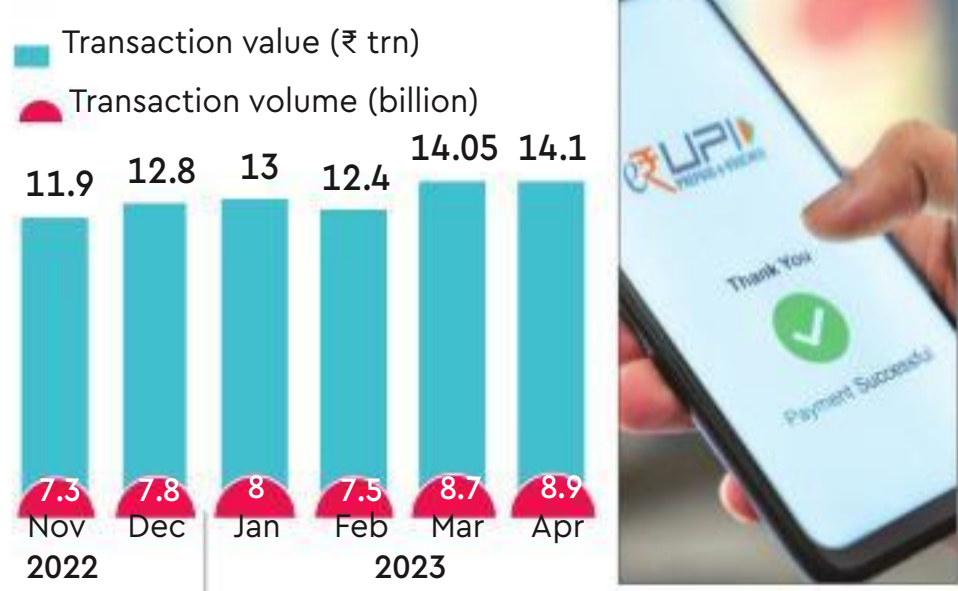

AJAY RAMANATHAN
Mumbai, May 1

UNIFIED PAYMENTS INTERFACE (UPI) transactions rose 43% year-on-year (y-o-y) to a record ₹14.1 trillion in value terms during April. In terms of volume too, it rose 59% y-o-y to a new high of 8.9 billion.

In March, transactions had hit ₹14.05 trillion (value) and 8.7 billion (volume) while for February, 7.5 billion transactions worth ₹12.4 trillion were processed on the platform.

The last three days of April saw nearly 1 billion transactions worth around ₹1.37 tril-

DIGITAL SPENDING TREND

lion, data from the NPCI showed. This was due to a rise in discretionary spend and planned expenditure as April ended on the weekend, where spends are usually higher, say experts.

"When people start mak-

ing debit payments, these are linked to two components. First component is money in hand and the second component is expenses and transactions planned. During the weekend, people start spending money," says Akshay

Mehrotra, co-founder and chief executive officer, Fibe. "On account of being a working Saturday, salaries could be April 29. This meant that money was available to make various payments on Saturday. UPIs are linked to money in the bank account," he added.

The rise in UPI transactions has been aided by the growth in digital lending, wherein lenders opt to disburse loans through the unified payments interface platform. Immediate Payment Service (IMPS) transactions rose 5% y-o-y to 486 million in April. In terms of value, it rose 17% y-o-y to ₹5.2 trillion.

FASTag transactions in April rose 15% y-o-y to 305 million in April. In terms of value, it 22% y-o-y to ₹5,149 crore.

Banks, payment operators report ₹1,750-cr frauds in seven months: RBI

GEORGE MATHEW
Mumbai, May 1

BANKS AND PAYMENT operators have reported online payment frauds of ₹1,750 crore in the seven months ended March 2023 even as online transactions picked up substantially in the last several months.

According to data available from the Reserve Bank of India, the fourth quarter ended March 2023 itself witnessed payment frauds of over ₹800 crore under the new format of fraud reporting. While the month of March saw 225,000 transactions involving ₹333 crore payment frauds, comparable data for the same period in the previous year is not available. However, when compared to the volume of transactions involving internet and mobile apps, the fraud amount is not very significant but it shows the vulnerability in the system, payment sector officials said.

"The new format captures e-commerce transactions, transactions using FASTags, digital bill payments and card-to-card transfer through ATMs," the RBI said. The data from November 2019 onwards for card payments (Debit and credit cards) and prepaid payment instruments (PPIs) may not be comparable with earlier months or periods, as more granular data is being published along with revision in data definitions, the RBI said.

Card and internet frauds were just ₹87 crore involving 2,321 frauds during the April-September period of 2022-23,

according to the RBI's Report on Trend and Progress in Banking.

Transactions involving mobile apps were ₹233 trillion during the year ended March 2023. Net banking transactions were worth ₹915 trillion and ATM cash withdrawals were ₹33.04 trillion during the fiscal, according to RBI data.

With payment frauds remaining a concern, the RBI migrated fraud reporting module to DAKSH - Reserve Bank's Advanced Supervisory Monitoring System with effect from January 1, 2023. Due to the interconnectedness of different payment instruments, acquiring bank operations and payment gateways, vulnerability of paytech processes of any counterparty to cyber risk and fraud risk at entity level adds and magnifies the exposure to systemic risk, said Krishnan Chari, chief risk officer, Worldline India.

"While policy makers lay out guidelines for paytech institutions for compliance on fraud and cyber risk management, it is also essential that a systemic risk management framework for payment and settlement systems is also developed on similar lines as Basel committee systemic risk framework Chari said. The payment systems risk framework at a national level should be formulated taking into account the interconnectedness of banks, non-bank payment gateways, payment aggregators and retail payment clearing platforms such as NPCI.

Fraudsters have been using innovative methods to defraud the common and gullible people of their hard-earned money, especially the new entrants in the use of digital platforms who are not entirely familiar with the techno financial ecosystem. Punjab National Bank recently warned customers about a new form of fraud attempt by scammers. "This is to inform the general public that a fraudulent message stating "PNB's 130th Anniversary Government Financial Subsidy" is being circulated across digital platforms. These are fake messages and PNB brand name is being used to perpetuate different forms of fraud. In some cases, these frauds are attempts at identity theft and financial scams," PNB said.

Credit card outstanding increases by 31% to ₹1.94 trillion in FY23

HITESH VYAS
Mumbai, May 1

CREDITCARD OUTSTANDING surged by 31% or ₹45,866 crore to ₹1.94 trillion in the fiscal ended March 31, 2023, reflecting the rising discretionary spending by consumers using unsecured loans.

In fiscal 2022, the credit card or unsecured loan outstanding jumped by 13% to ₹1.48 trillion from ₹1.32 trillion in FY2021, the Reserve Bank of India's (RBI) data showed.

An unsecured loan is a loan which one can obtain without providing any collateral. Personal loans, credit cards, and education loans are the different types of unsecured loans. The risk of banks in offering such loans is high as there is no collateral to recover in case the borrower defaults.

The share of credit cards outstanding in the overall retail loan stood at 5% in the 12 months ended March 2023. There was a marginal uptick in the share of credit card outstanding to retail loans compared to FY22 when it had stood at 4%, the data showed.

The restrictions in movement and job uncertainty during the Covid pandemic had hit the discretionary spending of consumers badly. However, con-

sumer spending accelerated post Covid on activities such as domestic and international vacations, cars and online purchases.

The RBI data showed that credit card spending stood at ₹14.33 trillion in fiscal 2023, as compared to ₹9.72 trillion in fiscal 2022. The number of credit card transactions in FY2023 was around 2.91 billion as against 2.24 billion in FY2022.

In 2022-23, banks added 11.7 million credit cards, taking the total credit outstanding to ₹5.3 million as on March 2023 from 73.6 million as on March 2022.

Recently, the RBI expressed concerns over the rising non-performing loans in the credit card segment.

"Delinquencies are reducing in the 90+ days past due bracket across all categories of consumer credit, barring credit cards and education loans," the RBI said in

the 'State of Economy' article, published in the monthly bulletin for April 2023.

In the quarter ended March 2023, SBI Cards and Payment Services, the pure-play credit card player, reported a 13 basis points jump in its gross non-performing assets (GNPA) to 2.35% compared to 2.22% in the year-ago quarter.

During the fourth earnings call with the analyst, SBI Card's Managing Director and CEO Rama Mohan Rao Amara said the company has identified the areas that have contributed to higher slippages in the last few quarters, impacting the NPAs and write-off numbers. Portfolio actions to address the issue have been taken, he said.
